Fastest Game of Crow League Results in Victory for Bearcats by 4-3 in Hard Fought Game

Largest Attendance at Coleman Rink Since Club Was Re-organized in 1928. About 1200 People on Keen Edge of Excitement Throughout Tense 60 Minutes of Brilliant Play by Both Teams. Blairmore Captures League Championship Fourth Year in Succession.

Blairemore Bearcats maintained their lead in the Crow League last evening by defeating Coleman Canadians in the fastest and most largely attended game of the series by a score of 4-3, after Coleman had gained a two goal lead in the early part of the second period.

Coleman's hopes ran high when the first goal was scored on a beautiful shot by Peppy Oliva on a rebound from the Blairmore goal, seen in by Joyce. McKey of the Bearcats scored eight minutes later, ending the period.

In the third, the Canadians quickly gained a lead, Liya on an assist from Verner scoring in 50 seconds, and Jenkins in 1:55. Coleman fans were wild with delight at the lead, but it spurred the Bearcats to fresh effort, and goals were scored by Tony Vejpreva, 11:40, P. Anderson, 12:45, and Bill Johnson, 15:45.

The third period was scoreless and without a penalty.

Penalties were as follows: First period, McKey and Anderson of Bearcats; second, Jenkins, Frank Vejpreva, Richards, Canadians; Evans, McVey, Bearcats.

A. J. Earbour, Bellevue, referred. At 11:40.

A too-enthusiastic Blairmore supporter took a swing at Referee Barbour from the rink side, during the first period, and was promptly given a hoist in return which quieted him for the balance of the evening.

CALENDARS AND NOVELTIES
Merchants desiring these for 1932 can order through The Journal. Prices run from \$6.00 to \$15.00 per 100 and we would be pleased to show samples

CANADIANS DEFEAT MINERS ON SATURDAY NIGHT.

Again the Coleman Canadians were victorious in a Crow League match when they defeated the Coleman Miners on Saturday night by a score of 4 to 1.

Jenkins, on an assist from Fraser, opened the scoring in the first period. Five minutes later Kwasney tied the score. Gate again put the Canadians in the lead when he beat Kanik with a shot from the blue line.

The score remained unchanged during the second period. Play was fast and several penalties were handed out by Referee Graham.

In the third period the Canadians added to their lead when Patterson scored with a shot from the blue line. Liya, on an assist from Jenkins, scored the final goal towards the end of the game.

The Miners' goalkeeper prevented the score from being greater by his brilliant performance in the net. Several of the Miners' team played remarkably well throughout the game. However, they were unable to defeat the fast-stepping Canadians.

The line-up:

Canadians: Collogroso; Vejpreva, Joyce; Liya, Fraser, Jenkins, Patterson, Gate, Oliva.

Miners: Kanik; Kwasney, Johnson; Kobica, Kapulka, Kapulka, Morency, Clark, Jenkins, Mahovich.

Penalties: Miners, Johnson, Kwasney, Kapulka, Kapulka, Kobica; Canadians: Joyce, Fraser, Vejpreva, Gate, Oliva, Liya, Jenkins.

Referee, George Graham.

Red Cross Society

The Red Cross Society acknowledge with thanks the following contributions of clothing and money, for local relief. These things have been received up to Dec. 28, and since Nov. 24th:

Clothing: Mrs. H. Dunlop, Mrs. A. M. Morrison, Mrs. G. Patterson, Mr. J. Price, Mrs. J. Allan, Mrs. J. A. McDonald, Mrs. A. Dewar, Dr. D. MacLeod, Mr. J. Allan, Mrs. F. Antrobus, Mrs. Wood (hospital), Mrs. F. Cox, Mrs. R. Laslett, Miss Nesbitt, Mr. K. Blain, Mrs. A. J. Brown, Miss M. Powell, Miss B. Dunlop, Miss L. Johnson, Mrs. T. B. Smith; Mrs. Hayson, Mrs. D'Appolonia (chicken), Mr. C Devine (heater and pipes), Mrs. W. L. Rippon (infant's clothing).

The following donated money for local relief work during the month of December:

John MacDonald (per Coleman Teaching Staff and Dr. Mac-

Leod) \$25.00

Mrs. Wilcox 5.00

Mr. W. L. Watkins 3.00

Miss M. Surtees 2.00

L. O. L. (whist drive and dance Dec. 12th) 107.00

Coleman Dramatic Society, (Play Dec. 15) 61.60

Rev. A. E. Larke 5.00

A committee of citizens 50.00

Miss M. Powell 5.00

Mrs. Craig (Sentinel) 10.00

Clothing given out since Nov. 24th:

56 garments of underwear, 46 pairs of hose, 21 pair shoes, 23 pairs rubbers, 3 suits pyjamas, 1 kimono, 6 yards of print, 2½ yards dress goods, 3 pieces dress goods (donated), 2 pair boy's pants, 30 yards flannelette, 6 spools thread, 9 sweaters, 2 blankets, 1 quilt, 5 dresses, 5 men's shirts, 3 lots of infant's clothing, 6 women's coats, 2 boy's coats, 2 girl's coats, 1 windbreaker, 1 boy's suit, \$2.00 milk tickets, 2 pairs overalls, 1 side of bacon (donated).

Two bales of women's clothing chiefly coats and dresses, have been received by Mrs. R. M. Dunlop, secretary of the local Red Cross branch, for distribution among those in need. They were sent by Rev. Mr. Powell of Calgary.

The first game of the Coleman Taxis is to be played in Coleman on Tuesday, Dec. 29, when the local team defeated the Blairmore Taxis 2 to 1. Gibson opened the scoring for Blairmore when he netted one on a pass from Frazer, Atkinson then scored one for Coleman and was closely followed by Salvador, who scored the winning goal.

The teams lined up as follows:

Blairmore: Frazer, Chappell, Gibson, F. Morgan, McQuine, J. Morgan, Scott, Emery and Perry.

Coleman: Salvador, Atkinson, Brennan, Gentile, Pardell, Dunlop, Haynes and Cocciofine.

Penalties: Chappell 1 minute.

BILLIARD AND SNOOKER PRIZES

Jack Hopkins Jr. won the billiard tournament at Rialto Pool Room, and Idris Hayson was second as a cue artist.

In the snooker competition, "Big Steve" was first and Bob Mitchell second. The prizes were turkeys and geese. These tournaments for several years have proved very popular, and always draw a number of interested fans. The owners, Messrs. Lloyd and Randall, extend a cordial invitation to players at any time, as several good tables are available, large size tables for billiards or smaller pool tables.

COLEMAN Taxis Defeat Blairmore

The first game of the Coleman Taxis is to be played in Coleman on Tuesday, Dec. 29, when the local team defeated the Blairmore Taxis 2 to 1. Gibson opened the scoring for Blairmore when he netted one on a pass from Frazer, Atkinson then scored one for Coleman and was closely followed by Salvador, who scored the winning goal.

The teams lined up as follows:

Blairmore: Frazer, Chappell, Gibson, F. Morgan, McQuine, J. Morgan, Scott, Emery and Perry.

Coleman: Salvador, Atkinson, Brennan, Gentile, Pardell, Dunlop, Haynes and Cocciofine.

Penalties: Chappell 1 minute.

BILLIARD AND SNOOKER PRIZES

Jack Hopkins Jr. won the billiard tournament at Rialto Pool Room, and Idris Hayson was second as a cue artist.

In the snooker competition, "Big Steve" was first and Bob Mitchell second. The prizes were turkeys and geese. A NEW PUZZLE CONTEST

The Family Herald and Weekly Star have just announced a big British Lion Puzzle Contest in which a most attractive list of prizes are offered for calculating the total of the figures forming a huge Lion.

It constitutes a most interesting game for every member of the family and added to this is a generous list of cash awards. Our readers may receive copies of the Lion and full details by addressing the Family Herald and Weekly Star, Montreal.

Miss Vansack returned on Saturday after spending Christmas holidays at her home in Fernie.

"Doing business without advertising is like wishing at a girl in the dark; you know what you are doing, nobody else does."

Every man in business must get charged to the full on the efficiency of advertising in business. By creative effort every individual can help bring about better times in 1932.

Glee Society Hold Fine Concert

Sunday Evening Concert Was a Delightful Treat and Glee Society Highly Complimented.

Dr. R. F. Borden expressed the appreciation of the audience on Sunday evening at the concert given by the Glee Society and assisting artists, in stating that such a program was food for the soul. Under the direction of William J. Harris, A.L.C.M., some very fine selections were given in an admirable style and finish, and the outstanding singer of the assisting artists was Miss Hilda Morris, gold medalist of Alberta music festival, whose soprano solo captivated the audience. A local girl who holds promise is Eileen Richards, whose first

appearance was highly creditable. Regrets were expressed at Mr. A. Hadwell's inability to attend through sickness, and Alf Phillips took his place by singing two baritone solos in his usual fine style.

Praise is due the accompanists, Mrs. C. McDonald, L.A.B., of Bellevue, and Mr. J. Emmerson.

The members of the Glee Society were Fred Cox, W. Hayson, Harold Chamberlain, Alf Phillips, Lewis Jones, John Luck, Jack Clarke, Seth Raymond, W. Hopkins, P. Smith, W. Smith, J. Cousins, A. L. Watkins, J. Houghton, G. Dufield Sr., W. Hibbert, George Hibbert, Cyril Hibbert.

The program follows:

"The Beliegued"..... Coleman Glee Society

Soprano Solos..... "The Pipes of Pan are Calling"..... Miss Hilda Morris

"The Virgin's Cradle Hymn"..... (Gold Medalist Alberta Musical Festival)

Tenor Solos..... "La Chere Mort"..... George Hibbert

"The Little Church"..... Coleman Glee Society

Vocal Duet: Tenor and Baritone..... "Watchman"..... Messes. A. Hadwell and A. Phillips

Soprano Solos..... Selected..... Miss Eileen Richards

"Grant to the Jews"..... Coleman Glee Society

Violin Solos..... "Sonata No. 3 Handel"..... Tom Hill

Vocal Quartette..... "A Dream"..... Coleman Glee Society

Soprano Solos..... "The Children's Home"..... Miss Hilda Morris

"May Dew"..... Coleman Glee Society

"By Babylon's Wave"..... Conductor..... William J. Harris, A. L. C. M.

Mr. J. Emmerson..... Accompanist..... Mrs. C. McDonald, L.A.B.

Golden Bubbles and Dreams of Wealth Fade Very Quickly

Principal Actor in Truth Stranger Than Fiction Episode Is Arrested in Lethbridge

STRANGER PLAYS THE OLD CONFIDENCE GAME

Coleman Taxi-Driver Tracks Him to Lair and "Big Deal" Man Is Remanded for 8 Days

A man named W. Rogers registered at the Grand Union on Dec. 8 or 9. He said he was here to carry out an electrical survey by means of a short wave radio, which would indicate if there were valuable mineral deposits.

He talked of big business, engaged a secretary and a local confidential adviser to scout out certain pieces of land, and on Saturday last proceeded with his entourage to Lethbridge by local train, where a prominent city lawyer was called into consultation. The party, with the lawyer, came back to Coleman on Sunday, interviewed a proprietor of certain lands adjacent to the town, and shortly after returned to Lethbridge, arriving there late Sunday evening, stopping at the Marquis hotel. The "big deal" was presumably to be completed in its details next morning. The lawyer arrived, the chauffeur and the secretary were on hand, but Mr. Rogers failed to appear.

Investigation by the chauffeur led to his being discovered in a house in the city, his room not having been occupied at the hotel. He was on Tues-

ENO'S "FRUIT SALT"

The Safest, Surest Way To Health

The daily dash of ENO in a glass of water every morning is the safest, surest way to inner cleanliness. And to be inwardly clean is to be healthy.

ENO's "Fruit Salt" is a delicious health beverage that tones and sweetens the entire system. For constipation, acid stomach, fatigue and nervousness it is without equal.

But remember, only ENO can give ENO results.

Why The World Is Sick

Reviewing all that the world has passed through in the years 1914 to 1931, considering the deplorable state of affairs existing in the world today, and at the beginning of a new year, looking into the immediate future, one would expect all people, of all races, nationalities, languages and creeds, who possess an atom of intelligence and a modicum of common sense to solemnly vow "Never again."

During the frightful years of human anguish and suffering of the world people were sustained, even uplifted, by the hope, the oft-expressed declaration, that was to come and all over; that, when the strife and agony was ended, a more joyful and brighter day would dawn for this old world, the commencement of an era of happiness, progress and prosperity unparalleled in the history of mankind. Buoyed up with these hopes, inspired by this bright vision, people labored and sacrificed and suffered confident that their children and their children's children through generations to come would reap the benefit.

But disillusionment has come. The nations of the world were not purified from the sins of the selfishness and greed of man were not consumed. The huge debts which the war imposed on each nation are crushing the people, but instead of a willingness to mutually and amicably adjust these burdens, or, as there should be, a keen anxiety to do so, with the strong helping the weak, the nations with war-like ferocity seem bent on making the "otherworld" pay to the last farthing. Like Shylock of old they demand their pound of flesh, caring not that thereby all are headed toward the abyss of destruction.

And individuals, like nations, display the same selfishness, and even greater greed. For the losses they sustained during the war, they seem determined to recoup themselves. Full and exorbitant payment they are demanding for the allegedly patriotic sacrifices they made during the war period. They apparently care not that such payment to them means ruin to others, and they short-sightedly forget that with the ruin of these others loss must inevitably fall upon themselves.

And, so, nearly a decade and a half after the joyful announcement of the Armistice, and the coming of the long hoped for peace, there is as much suffering throughout the world as during the war years, possibly less in some countries but much more in others. The same great wealth of natural resources, provided by a benign Providence, exists; the needs and desire of man are as great as ever; the means are at hand to utilize the one to meet the requirements of the other. Butiful willful, selfish man says "No." He refuses to consent to anything to help his fellow man, but selfishly thinks only of self, and demands that all others shall help him while he holds back.

Thus each nation builds economic barriers against all other nations; each is at war with all others in an attempt to out-maneuver them, to make progress while all others decline. And so all suffer, not one is making progress, all are on the decline. Again, what is true of nations, is true of individuals. One industry makes demands for itself alone regardless of the effect on other industries, forgetting that if these others suffer, it, too, must suffer; if they perish, it, also, must die.

The world war to end all war failed in its object. War raged today between the nations as never before. It is a world war, more embracing in fact than the colossal struggle of 1914-1918. It is being fought by different methods, that is all. It is piling up national debts higher than ever; it is steadily, even rapidly, increasing the burdens of taxation; it is destroying trade and commerce; it is making men, women and children naked, and cold and hungry. The Great War did provide employment for all; the present economic world war has thrown millions out of employment, and the number steadily increases. It is undermining the health and the morale of countless thousands of people.

The picture is a dark, a gloomy one. It is, however, futile to delude ourselves. It is idle to cry peace, peace, when there is no peace. The only salvation for the world is a return to sanity. The world is just what the people of the world make it. If they insist on fighting each other, whether in a physical or economic sense, why fight them? Will it be seeking and striving to destroy them most completely and prosper? The world must turn from its present ways before it can recover from its sickness. It is not a shadow of gold, nor over production, nor even present indebtedness that is the trouble. It is the people and their prevailing outlook on life, their individual and narrow nationalistic selfishness that is the root cause of the world's sickness and depression.

Unluckiest Automobile

Authorities investigating supposed frauds in connection with Massachusetts' compulsory automobile liability insurance law located this "unluckiest" automobile in this part of the country. During two years this machine had been involved in 42 accidents in which 30 persons claimed to have been injured.

"Which air plane do we take, dear? Did that aerial policeman say the third bay past Cape Cod or the second?"

Receive Repeat Orders

Initial shipments of British Columbia tomatoes from Newmarket to Hong Kong, made with the co-operation of the municipal authorities, have resulted in repeat orders for the product, it is announced by Hon. William Atkinson, Minister of Agriculture. The initial shipment sold readily and at satisfactory prices.

To reduce costs many agriculturalists in Peru are returning to the use of mules and oxen in plowing instead of tractors.

Sorry To See Night Coming She Could Not Sleep

Mrs. K. McElroy, Kirkfield, Ont., writes: "I was very nervous and run down" was a sort of hobby I had smothering feelings and was sorry to see night coming as I could not lie down or go to sleep.

I was advised to use Milburn's Heart and Nerve Pills. I took seven boxes and am now completely relieved; can sleep fine all night, and have gained in weight."

Idea Is Not New

Psychiatrist Believes Murder Preventable By Detecting Criminal Type Early

Murders may be prevented in the near future by the recognition and treatment of the types likely to commit major crimes.

This is the belief of Miss Alice Raven, a leading London psychologist, who has made an exhaustive study of the most famous murder cases of present years.

"In all cases of murder I have investigated," she told a newspaper representative, "I have found a definite psychological similarity in the murderers."

"Murders are almost invariably introverts with a sense of hostility towards the world, probably due to an inferiority complex, and they have frequently no power of self-expression."

"Their creative faculties are bottled up within them, and this repression leads to a desire for violence."

"More research is needed on this point, but I am inclined to think that the murderer is a man who has a memory of cruelty in childhood to work off."

"My studies of murder cases and criminal mentality show that the murderer is little committed under certain definite conditions, and I am convinced that trained psychologists will ultimately be able to recognize the type, even in childhood, likely to commit major crimes, and the social services will take them in hand."

Canadian Ports Cheaper

Cattle Exporter Sends Shipment Of American Mules From Quebec

The possibility that Canadian ports will be used in preference to American ports as a shipping center for cattle and horse shipments to Europe was foreseen at Quebec by William R. Rowe, leading United States cattle exporter, who was supervising the loading of twenty-eight sample head of American mules consigned to the Italian Government for army purposes, chiefly in connection with artillery.

The animals were sent across on the freighter "Hanover," which vessel also carried a capacity cargo of 226,000 bushels of grain for Hamburg.

When asked why he had chosen Quebec as the shipping port, Mr. Rowe said he found that even with the longer rail haul to Canadian port transportation costs were reduced considerably, resulting from a much lower cost of Canadian feed.

The exporter, who crossed to Europe on the charge of the shipment, expressed the opinion that the movement of these animals through Canadian ports would increase in the future, meaning that a trade which previously had gone entirely through United States harbors now will be deflected to the ports of Quebec and Montreal during summer months, and St. John, N.B., in the winter season.

Strangled With Asthma Is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Hargrave's Asthma remedy is beyond measure. Where all was straining there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Newest Excuse For Passing Traffic Light

Alabama Negro Said He Thought It Was Christmas Day

Two long-eared farm mules driven by an aged negro pulled a rattling wagon past a red traffic light in Montgomery, Alabama.

Traffic became paralyzed. Motorists became paralyzed. Horses stood in swelling bedlam.

"Hey, you," roared policeman W. H. Copley, trying bravely to unstrangle the snarl, "didn't you see that red light?"

"Yes, sib, boss. I seed it long 'fore I got here," the old negro replied with a disarming grin. "I been watchin' it flash red and green as I driv' up the street. Ain't no tellin' what you city folks gwine do next for Christmas decorations."

Saying, the aged one clucked to his mules and was on his way, still grinning.

Mrs. Jones—"I knew your first husband—a fine man—he died too soon."

Mrs. Clark—"That's what my present husband says."

Schools and colleges in Canada teach approximately one-quarter of the country's population annually.

Since 1500 A.D. Iceland has exceeded all other regions in the output of lava from its volcanoes.

WANTS REINFORCEMENTS

Discoveries Confirm Report Geological Mapping Of Manitoba Area Indicated Gold Deposits

The discoveries of gold made recently in the Island Lake area of northern Manitoba would appear to confirm the views expressed by Dr. J. F. Wright in the summary report issued by the geological survey, Department of Mines, Ottawa, following the geological mapping of that area in 1927, according to a brief statement issued from the Department of Mines, Ottawa. The statement continues:

"Commenting on the mineral possibilities of the district, Dr. Wright, who paid a further visit to the area during the summer, said that the geology indicates areas of rock similar to those wherein commercial mineral deposits have been discovered elsewhere within the Canadian shield. Consequently, it is pointed out, the area is one that should be prospect ed carefully. Favorable rock conditions extend over a large belt and a great deal of intensive systematic prospecting will be necessary before the mineral possibilities can be evaluated."

Manitoba Not Changing Auto License Tax

But Owners In Saskatchewan Pay Five Dollars More

Licenses for motor cars in Manitoba will cost more for 1932 than this year, and the registration fee will continue to be the same, inquired at the legislative buildings disclosed.

No change is contemplated in Manitoba. In Saskatchewan citizens will be called upon to pay \$3 more for licenses than do owners of motor cars in Manitoba.

Licenses in Manitoba range from \$9 to \$35 in cost, depending on the length of the wheelbase of the car. Registration of motor vehicles other than trucks and trailers cost \$9 for cars not exceeding 100 inches in the length of the wheelbase, and \$2.50 for every additional five inches in the wheelbase.

Difficult To Understand Why People Get Any Enjoyment Out Of Gossip

Of all the vices earth the one that is the most difficult to understand is the vice of gossip. For most crimes we can find some explanation; for gossip there is no explanation except depravity or insanity. How people can find enjoyment in making life hard for others is one of the eternal mysteries. The adherents of malice and gossipy tongues has done more havoc in the world than any other one viciousness.

From the masts of the weather-beaten vessel flew the pennant of the Douglasland, Queen, Yacht Club and a tattered American flag. He had found the boat, he said, in a yard in Rio. It had been built in 1925 in the yard of John Etherington of Nova Scotia, was 32 feet 9 inches in length at water line; had a beam of 9 feet 6 inches, and a draft of 5 feet 6 inches, a 5-horsepower ketch with rather puny masts. He had added a square sail of 330 square feet on a 16-foot yard. The "Savoy" had been fitted with a 5.5 power Kermath engine so that in smooth water he had been able to make six knots. The boat's tonnage was 11.6 tons gross, 10.2 tons net.

Keep Douglass' Egyptian Liniment Handy

A sure speed remedy for burns, sprains, felon, blood poison, soft corns, warts, scald feet. Invaluable for inflammation and muscular rheumatism.

"Now that's the kind of bloke who should be driven out of the air! Did you see him cut-in? You know, the air isn't safe for decent, careful flyers these days."

Without An Audience

Airplane Scene Of Wrestling Match Between Tiger And Trainer

A wrestling match between a tiger and his trainer in an airplane flying over the English Channel from France was reported by the London Star.

The tiger was said to have broken out of a large wooden cage and started grappling with his caretaker—his customary circus act. Fearing the location was hardly suitable for such an act, the trainer dashed into the cage with the beast clinging to him and closed the door.

They made the rest of the journey, apparently in perfect harmony. The pilot and his mechanic were ignorant of the events occurring in the cabin behind them.

It Will Relieve A Cold—Colds are the commonest ailments of man and, if neglected, may lead to serious complications. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attacks. And, if once the inflammation it will usually stop the cough as it relieves the irritation in the throat. Try it and prove it.

Rain falling upon the earth averages about 16,000 tons a second.

Moslem League Abandons Plans For Complete Independence Of India

Bombay, India.—Mahatma Gandhi returned today from the recent Indian Round-Table Conference at London, England.

New Delhi, India.—"Swaraj" in the Indian sense of complete independence as a goal for the country, was abandoned by the Moslem League Sunday, December 27, and "responsible government with adequate safeguards for Moslems" was substituted as the ultimate aim.

The decision, reached at a meeting there, is expected to have important repercussions in the future of India. Ulub Khan, who was a delegate to the London Round-Table Conference, presided at the meeting.

Apart from the decision regarding "Swaraj," the meeting decided to remodel the league's executive bodies on lines of the National Congress and negotiate with all parties represented in the Moslem conference with a view to an amalgamation between the conference and the league.

Resolutions were adopted opposing terrorism and the "no rent" campaign.

The chief centre of active unrest Sunday, was Lahore, where four Hindus and four Moslems were so seriously injured in communal rioting that they were taken to hospitals. Eleven persons were reported to have been killed Saturday, December 26, at Peshawar, where troops fired on a crowd of riotous "red shirts." The northwest frontier province was reported calm Sunday night.

The arrest of Jawaharlal Nehru, president of the all-India Congress in the Bombay headquarters, Saturday, caused "hartal" (general strike and closing of shops) to be proclaimed in Bombay Monday as a protest.

To Double Size Of Store

Big London Store To Cost Several Million Pounds

London, Eng.—H. Gordon Selfridge announced as a "gesture of indifference" to prevailing conditions that he was planning to double the size of his London department store.

The project will cost between £1,000,000 and £1,000,000, and the building programme will take ten years to complete. Work will be started immediately and is expected to be well along by next fall.

"We need see a single ray of sunlight in the clouds which cover all business now," Mr. Selfridge said, but added he had been reading a copy of an 1837 editorial "in which almost exactly the same conditions as now were outlined. They passed then and I'm sure they will pass now."

Rev. F. Ballard Dies

Sheffield, England.—A well-known controversialist preacher and author is lost to the Wesleyan body in the death recently of Rev. Frank Ballard. He was used to oppose the ideas of Robert Blatchford.

New Vessel Burns

Newport News, Va.—The United States Mail Steamship Co. liner "Seagovin," nearing completion at the Newport News Ship Building and Drydock Company, burned at its berth in the yard Sunday, December 20.

Rigors Of Sub-Arctic Held No Terrors For Ottawa Woman

Edmonton, Alberta.—Rigors of Canada's sub-Arctic held no terror for Mrs. H. S. Madill, of Ottawa, who has just returned to civilization after a summer spent in the Arctic stretches of the Mackenzie and Athabasca. Since leaving here, early last June, Mrs. Madill and her husband, who was engaged in survey work for the Dominion Observatory at Ottawa, travelled more than a thousand miles by canoe. They are returning to the federal capital by automobile.

Looking very slim but remarkably fit, Mrs. Madill looked none the worse for her outdoor summer and did not seem to think she had accomplished anything out of the ordinary. It was not Mrs. Madill's first trip into bear country, however, for she accompanied her husband last year to Fort Churchill on a similar expedition. At

that time she was the only white woman permitted to go in.

Leaving Waterways June 14, the adventuresome pair began their long canoe trip down the Athabasca and Mackenzie Rivers. Their journey twice was broken when they were able to make connections with river steamers for short distances. About 500 miles was covered by steamer and 1,200 by canoe. They returned here from Akivik, 700 miles northwest of here, shortly before navigation closed down for the winter.

Hospitality of the North was one of the happy memories Mrs. Madill carried eastward with her. So many times, she said, when camped near the various forts, they were accorded such friendly treatment. A great deal of travelling was done at night and during the long summer when there was only a short period of darkness, many hours were spent at the pads.

Big Crop For Argentine

Two Weeks Of Opportunity Rain Have Insured Crop

Buenos Aires.—Another huge Argentine wheat crop became a certainty on December 21, as reports from sections of the country of frost damage was feared told of high yields.

Grain men estimated the country will have approximately the same amount of wheat for export from the harvest now nearing completion as from the yields of previous years, in spite of the fact that the acreage was reduced 20 per cent. this year.

The amount available for export from this year's crop was forecast at from 125,000,000 to 150,000,000 bushels.

Although 16,500,000 bushels of old wheat still are available for export, the new crop is moving to foreign markets with unusual rapidity. Five hundred and sixty-five thousand bushels of new wheat have been shipped already and tonnage has been chartered to move 13,300,000 bushels more before January 31, 1932.

In the meantime, two weeks of opportunity rain have insured an immense corn crop, grain men said, from which the exports may surpass the 330,000,000 sent abroad from the last crop.

Public Ownership Programme

Calgary Trades and Labor Council Preparing Resolutions For Convention

Calgary, Alberta.—Start of public ownership programmes by the Federal and Provincial Governments was urged by the Calgary Trades and Labor Council in preparing resolutions to be submitted to the annual convention of the Alberta Federation of Labor in Drumheller, January 13.

Council asked that the public ownership programme include banks, all forms of insurance and gasoline, and also urged that land be leased by the government instead of being sold outright to private persons.

Another resolution urged "a strong protest be made in regard to recent interpretations of the law which deals with what have been termed unlawful assemblies, and that the Federation make representations to the Labor members at Ottawa to have the necessary amendments passed to existing legislation to safeguard the right of Canadians to free speech."

Receives Invitation To Tea

Driver Who Hit Churchill Has Shown Anxiety Over Accident

New York.—Michele Contarsino, an New York—Michele Contarsino, an Italian "cabby" who lives in a house behind a billboard on Times Square, happened to be driving the automobile that struck Hon. Winston Churchill, British statesman, on Fifth Avenue a week ago.

Sunday afternoon, December 20, Contarsino, a little shy and abashed, sat down to tea in a luxurious Waldorf-Astoria suite with the wife of his distinguished victim and their young daughter, Miss Diana Churchill.

The invitation to the small tête-à-tête came because of the great anxiety Contarsino expressed in Mr. Churchill's recovery. Every day last week he called at the hospital.

Seek Duty On Flour

Recommendation Made To British Cabinet That Wheat Imports Go Untaxed

London, Eng.—The News Chronicle said it understood the scheme proposed by the British millers to take the place of the Government plan for a wheat quota called for a duty of \$1 a sack on all imported flour, but recommended there be no tax on wheat imports.

The newspaper said it understood the scheme would require that all mills be registered and that a levy of 50 cents be made on every sack of flour produced by domestic mills. There would be no duty on wheat imports, as the Chronicle understands the scheme, but a tax amounting to twice the levy on domestic milled flour would be charged on every sack of foreign flour entering the country.

The News Chronicle said the millers claim the scheme would leave them in a position to purchase their wheat to the best advantage and to maintain the quality of their flour by correct mixture.

Transient Found Dead

Calgary, Alberta.—John Davidson, 52, a transient, was found dead in bed in a shack he had just rented. Dr. George R. Johnson, coroner, viewed the body and said he believed death due to natural causes.

ON RAILWAY BOARD

R. Albert Labelle, notary of Hull, Que., who has been appointed to the vacancy caused on the Board of Railways Commissioners by Thomas Vienna who resigned this year.

New Zealand Premier Announces Project To Handle Overseas Finances

Elevator Crashes Down

Several Persons Are Undergoing Treatment At Vancouver

Vancouver, B.C.—Two women and a 10-year-old girl are in hospital and several persons are undergoing private treatment as the result of injuries sustained when a passenger elevator in a department store plunged out of control early Tuesday night.

The injured requiring hospital treatment are:

Mrs. Beckner, broken ankle, shock.

Mrs. D. M. MacDonald, broken ankle and bruises.

Patsy MacDonald, broken left leg.

According to information eight persons were in the elevator when it fell.

The car was making a down trip and had reached a point between the second and third floors when it suddenly plunged downward. When the car reached the automatic stop at the first floor, it was brought up sharply, stopping about three feet below the floor level.

Trans-Canada Telephone Line

Phone Line To Be In Operation About January 17

Calgary, Alberta.—The trans-Canada telephone line will be officially declared open about January 17, and a program to mark the forward step is being arranged at Montreal, said Hon. Vernon Smith, Alberta Minister of Telephones and Railways. Prominent Canadian officials would take part in the programme, he said.

The Labor party has suffered heavy numerical losses through the depression of trade in Great Britain and the accompanying lack of funds for political and trade union subscriptions. The reverse suffered by the party in the general election, although it polled nearly 7,000,000 votes, was caused to some extent by the fact that many former supporters voted against the party in favor of National Government candidates.

ONE DOSE GERMAN

REMEDY END GAS

"I was sick and nervous with indigestion and stomach gas. One dose of Adlerika helped. I eat anything now and sleep good."—Henry Dodd.

You can't get rid of indigestion or gas by just doctoring the stomach. For gas stays in the UPPER bowel. Adlerika reaches BOTH upper and lower bowel, washing out poisons which cause gas, nervousness and bad sleep. Get Adlerika today; by tomorrow you feel the wonderful effect of this German Doctor's remedy!—H. C. McBurney, Druggist.

NOTES AND COMMENTS

Hats off to the new year—a year of new opportunities in which the enterprising and the aggressive will again prove that faith, backed by action, will win the battle against all obstacles.

All this bunk about prosperity being just around the corner is played out. Thinking people realize that the only prosperity we will enjoy is that which comes of our own making, and that means hard work and close attention to every detail of business.

Men with fat tummies can talk, statisticians can produce stodgy records of figures, others can blindly hope there will be a turn in events; but that turn will come only when individual effort is sufficiently strong to turn the tide of depression. Things never will be as they were. The law of life is changed, and a way out of our present financial muddle which are international in scope must be found. In the meantime the individual must carry on. If we cannot afford oysters and soup, we must be thankful for cold meat and maybe pickles.

Despite short pay days and a marked decrease in business, Coleman people appeared to enjoy the festive season. Dances were well patronized, Christmas cheer in the form of supplies to the needy were distributed, Mr. Neighbor met everyone with a smile and a glad hand, and even the liquor store had an extra man to help hand out the goods. No matter how poor times may be, there will always be governmental revenue from this source, and through the beer parlors. If they did not get it, the bootlegger and the moonshiner would, so the lesser of two evils prevails.

The best tonic for the mind is creative work. A man may stand at a machine throughout the day, feeding something into it or tending it. He becomes mechanized in thought and stagnates, unless he makes time to employ his mind in other channels of a constructive nature. Some men keep their noses so close to the grindstone of their own business that they miss much pleasure in doing something that would benefit the community and earn themselves goodwill.

Goodwill is that intangible something which you cannot buy. It is personality, the result of cultivation and right thinking. Here is a trite statement by Roger Babson with which all will agree: "The fun of life is in growing—every successful man will tell you this. We really enjoy the things we ourselves earn."

The dawn of a new year is the time when all are prompted to try and get a new line-up for the ensuing twelve months. It is done in business, and it should be done in character building, for the mind is the controlling and impelling force of all our actions. Life must be a system of self-imposed discipline if we are to be happy. Let us not be slaves to our bad habits, such as laziness, indecision, "passing the buck" and putting aside unpleasant tasks. The greatest task is to be actually masters of ourselves. If that is accomplished, life in general would be much smoother and many troubles and regrets would be avoided.

There passed away during the holiday season a former Coleman editor, Ben Woodhull, publisher of the Champion Chronicle. The writer first met Ben many years ago when he was seated on a high stool at the type cases in the Alameda (Sask.) dispatch office. He was a slight figure at that time, his athletic appearance being due to his having been a lacrosse enthusiast, for in those days it was a real hot game among the southern Manitoba and eastern Saskatchewan towns. He was setting type for his weekly paper. The next time we saw him was on a visit to Coleman in 1928, when he had a look over his old stamping ground here, and suggested that we trade the Journal for the Champion Chronicle. Love of the mountains still remained in Ben's heart, equally as much as it existed in the writer's, so the suggestion was not entertained. He is remembered among the sporting members of the community for having been the one to organize a curling club, which played where the tennis courts are now situated. He said business was so quiet in the printing line that he resolved to get out before he was starved out; not a very cheerful message. But he was a soul to be kindly remembered, one of the old time weekly newspaper editors who saw the ups and downs of community life and shared in the joys and sorrows of those among whom he worked. Now Ben is free from the weekly compilation of local news, gathering ads. and collecting the shekels due him, with the traditional journalistic "30" inscribed in his memory on the minds and hearts of his old newspaper friends.

"The Four Hundred" has long been synonymous with the people who have the right things. It is fitting, therefore, that it should also be the total of the passengers on the first transatlantic cruise of the new wonder-ship "Empress of Britain," which left New York on December 3.

With the Canadian dollar where it is in the market, there is a marked tendency to keep it at home. Canadians are spending, or planning to spend, the winter amid the beauties of British Columbia. Indeed, gold and silver coins can mean a whole lot of dollars and the British Columbia coastline is one of nature's most beautiful spots anyway.

There are 82,200 schools or colleges in Canada taught by 83,144 teachers and attended by 2,490,623 pupils or one in a quarter of the population. The average expenditure is about \$1,668 on each pupil enrolled. Attendance is on the up grade being 77 per cent. for the school year ending against 75 in 1919. As to the future of tech calved on is assured, for the Technical Education Department of the Dominion government grants \$10,000 per year for 15 years, which means that the night schools will be able to run to say nothing of day courses in technical institutions.

Dr. Kiang Uses New Scientific Devices

Speaking to the weekly luncheon meeting of the Advertising Club of Montreal recently on "China Today" with special reference to advertising practices, old and new, Dr. Kiang Kang-Iu, Professor of Chinese Studies at McGill University, used a number of newly developed scientific devices, loaned by the Research Products Department of the Northern Electric Company, Limited.

The inside photographs shown here were taken by the new photographic flash lamp which leaves no shadow or outline and is more powerful for use in and in the faint surroundings. And in order that the spoken voice may be easily audible with an audience straining speech and lapel-type microphones recently developed in the Bell Telephone Laboratories was provided for his use in conjunction with the new Public Address System (voice amplifiers). This microphone has been specially developed for use by lecturers who from the nature of their address are obliged to turn away from their audience and point to a blackboard or map and could, therefore, not be facing the ordinary microphone.

Pictures 1, corner of the lecture room; 2, a street scene in old China; 3, Dr. Kiang wearing the new microphone; 4, amplifier truck outside the Mount Royal Hotel.

DOES ADVERTISING RAISE PRICES?

An Advertisement Addressed to the Public of this Community

When you hear of a manufacturer who spends \$100,000 or more each year on advertising, you may feel like saying—"Terrible! What waste! And it is we—the public—who have to pay for it all!"

But stop! Before you make judgments, look at facts.

Manufacturers who advertise spend from 2 to 5 per cent of their sales on advertising. Let us put it at 3 per cent of the price which you pay for their article of sale. So if you pay 25 cents for an advertised article, you are paying three-fourths of one cent to pay for making it known and wanted by you. The price would not be less—indeed, it might easily be more—if the article had no money spent on it to make it known and wanted by you.

It is economy, so far as you are concerned, to have manufacturers develop a huge demand for their product, by the agency of press advertising. YOU pay for the advertising, of course, but you pay a smaller price for the advertised article than would be necessary if the manufacturer's output were smaller!

Advertised articles have to be better than non-advertised articles, and since they are made in larger quantities, they can be made and sold at least as cheaply as imitative non-advertised articles.

If you are a thrifty and wise buyer, you will buy the article made known to you by faithfully-maintained press advertising. The stranger product should be shunned.

Be friendly, therefore, to nationally advertised products—foods, toilet aids, motor cars, radio sets, and all else—which are also locally advertised—in this newspaper.

Here and There

Canada has had a bumper crop of potatoes this year with an official preliminary estimate putting the total 1941 yield at 92,558,320 bushels, or 10 per cent greater as compared with 89,491,040 bushels from 57,130 acres in 1940.

Canada is the pioneer in fish culture on this continent. The first fry hatched from artificially fertilized eggs in Canada were produced in 1865 and fish culture was established in 1867. Dominion Government service in 1867.

Britons are eating Canadian meat this year with their breakfast bacon. Estimates for 1941 place a figure of 26,000 cases, each of 30 dozen eggs, for export to Great Britain. Last year it was only 5,500 cases.

The fur trade is still one of Canada's big assets. In 1667 furs to the value of \$50,000 francs were exported to France. Last year their value was placed at \$17,187,399, mostly to Great Britain and the United States.

Grain traffic handled by the Canadian Pacific for October last shows a considerable increase over that of October, 1940. A total of 17,821 cars was loaded last month from the Prairie Provinces as compared with a total of 13,573 cars in October, 1940.

Idiots since the first week of October, the mill of the British Empire Steel plant at Sydney, N.S., is again operating and full time employment of six days a week to upwards of 200 men. They are rolling soft steel for a number of orders recently placed with the company.

With a trail mileage of 7,162 miles, a credit and having to date seen 42 deer, 169 caribou and 493 deer in New Brunswick, E. L. Pope, of Boston, Mass., is back in the New Brunswick forest on his 27th hunting trip in 21 seasons. He will spend several weeks on this trip.

Nat. conference colorful golf pro at the Canadian Pacific Lamara course, Vancouver, for the past five and a half years, sailed "by" the Empress of Russia recently for Tokyo where he will act as golf expert for the Full Shokai Club course. The conference operates a huge indoor layout in addition to its outdoors links.

Major John W. Sifton, one of the proprietors of the Manitoba Free Press, Winnipeg, seated at his writing desk in his private residence, recently, recently, pulled a lever which, through the medium of Canadian Pacific Telegraphs transmission wires, set in motion the new ten unit speed press just installed in the Free Press offices at a cost of \$300,000. The new press has a rated maximum capacity of more than 100,000 forty-page papers per hour.

Twelve hundred colonies of screened bees and their accompanying queens from the Province of Alberta were sent to the unique feature of the Canadian export trade to the Orient and of the shipments abroad the Empress of Russia recently. The European beekeeper has probably twice as much honey as an Asiatic brother that has been exploited by the Chinese since time of Confucius. (G...)

Here and There

A new railway record, and a different one, was established recently when John Caesar, called at the Vancouver office of the Canadian Pacific Railway for his jubilee pay cheque. Mr. Caesar has 60 years service to his credit.

Canada's gold production in September hit a new record, being 240,222 ounces, as compared with 220,639 ounces in August and 175,831 ounces in September 1940. The Dominion has been a gold-producing country for more than 10 years.

And now the eyes of the world are focused on the growth of all railroads in Quebec. One who seems to have weathered transportation and financial problems once more, just a good old Christmas custom!

One can visualise thousands of pairs of skin being waxed, now that the snow is here to stay. Then it will be time to go to Quebec, Baie, Field or Revelstoke, or anywhere where there is a real good hill.

And, speaking of Quebec, Jack Strathees, who was on loan to Louis Riel in Quebec last winter, is back at the Chateau Frontenac, Quebec, as winter sports director, once more, with a lot of good ideas and a smart staff of instructors. Jack is well known throughout Canada. Individually he's a fine performer at the piano. (P...)

Pacific Coast ports, and indeed shipping circles throughout Canada, are mourning the passing of Captain James H. Halliwell, 70, of the town of Portland, Ore., a pioneer in coastwise shipping and for 38 years manager of the C.P.R. coastal service of the Canadian Pacific Railway.

Sino-Japanese war reports are causing more good-natured talk than ever, especially imagined. Chin Chow, for example is almost as enterprising in many phases as was the Chinese with the great "Boxer" during the days of 1914-1918. Besides, it's the only war we've got!

WORLD HAPPENINGS
BRIEFLY TOLD

Flood waters spreading over northern Mississippi and portions of Arkansas and Louisiana, December 18, sent scores of families racing to high ground.

Continued improvement was reported Sunday, December 20, in the condition of Pola Negri, film actress, following her operation and blood transfusion.

The staff of the United States Consulate in Winnipeg, is being increased by the appointment of Stanley R. Lawson, now at Genoa, Italy, as vice-consul; consular officials were advised recently.

Sentences of six months and one year in prison were inflicted on Purshottamdas Tandon, a leader in the Indian Nationalist Congress, at Allahabad, India, on charges of violating the ordinance against the "no rent" campaign.

The captain of the liner "Tuscania," which arrived in Glasgow, Scotland, from New York, reported an elderly woman was fatally injured and 35 other passengers suffered minor injuries as the result of heavy seas which tossed the ship in mid-Atlantic.

Thirty firemen were injured by falling masonry or overcome by smoke when fire swept the ancient "Atlas Schloss" palace in Stuttgart, Germany, recently. Most of the art, except a collection of textiles, were saved.

Rene Pilon, Romeo Riendeau, each 20 years; Emile Groleau, Adrien Dechaseaux, each 14 years; these were the sentences meted out by Judge Teatreau, in the court of session at Montreal, to four young men who were convicted of armed robbery.

Premier George S. Henry returned to Toronto on Sunday, December 20, from a three weeks' tour of Western Canada and denied reports that he contemplated resigning the premiership to accept the vacant post of Lieutenant-Governor of Ontario.

Canadian car loadings week ended December 12, totalled 45,377, a decrease of 4,067 from preceding week and 4,896 less than like period 1930.

All departments of Oakland Motor Car Company plant at Pontiac, Mich., are on full time basis with some departments working at night as well.

U.S. Treasury called for repayment in New York federal reserve district of \$44,220,800 on December 21 and similar amounts on December 22 and 23, making total of \$132,662,400, representing 37 per cent. of amounts remaining on deposit for account of treasury notes dated December 15, 1931.

Studebaker Tractor, year ended September 30, 1931, net loss \$634,557 after depreciation, inventor adjustments, etc., against net income \$670,370, equal to \$3.04. Studebaker expanding employment with 9,000 men, now employed nine hours a day at South Bend.

Twins, a son and a daughter, were born to Mr. and Mrs. F. H. Simpson, of South Sioux City, Neb., early Sunday morning, December 20, 1931. The son was born at the family home shortly after midnight and the mother and the babe were hurried in an ambulance to a Sioux City hospital. An hour later the daughter was born. So one babe is a native of Nebraska, and the other of Sioux City, Iowa.

Asked Dive For Prison

Three youths, Harvey King, Anthony Orth and Lawrence Cambridge, Norfolk, Neb., said they had one request before they were taken to prison to serve terms of three years for stealing cigarettes—they wanted a pair of dice to take to the "big house."

Thirty-six hundred important bank positions in the United States are held by women.

Circuses were first presented under canvas in 1826.

The New Junkers' 'Plane

Has Opened Up New Phase Of Transportation In Canada

Extremely valuable mineral finds have been reported in different parts of the north country far beyond the railways. That at Bear Lake up on the Arctic circle is perhaps the most notable, but there are others at Island Lake, east of the north end of Lake Winnipeg, and elsewhere. The development of such properties no matter how rich, is impossible without adequate transportation facilities. The prospectors and mining men can fly to those remote places with the airplanes now in use, and these can carry a small amount of freight. But development on any considerable scale requires something better.

It is to supply this need that Canadian Airways Limited has secured the big Junkers' plane. It is built for carrying freight, not passengers. The interior resembles the inside of a freight car. Its carrying capacity and its speed when loaded of 100 miles an hour should be a great stimulus to mining development at remote points. It is understood that the company will secure other freight planes of the same type.

This is a new and interesting phase of transportation in Canada, and it may lead to highly important developments.—Manitoba Free Press.

Recipes For This Week

(By Betty Barclay)

DATE SANDWICHES

1 cup cream cheese.
1/4 cup dates.
1/2 cup English walnut meats.
1 tablespoon sugar.

Run the dates and nut meats through the food grinder, using the coarse plate. Mix with the cheese and season with the sugar. Spread on buttered slices of whole wheat bread.

CHERRY SANDWICHES

1 cup cream cheese.
1 tablespoon cream.
1 tablespoon sugar.
1 tablespoon maraschino cherries. Chop the cherries fine. Add them with the cream and sugar to the cheese. Mix thoroughly. Spread on thinly sliced and buttered rounds of bread. It is attractive to cut the upper slice with a doughnut cutter, leaving a hole in the centre through which the filling shows.

ORANGE MARSHMALLOW FLUFF

(Serves 6-8)

1 cup cream.
1/4 cup sugar.
1 cup quartered marshmallows.
cup orange pulp and juice.
Whip cream until thick, fold in other ingredients. Serve cold.

Paris Has Rare Viands

"Salon Of Gastronomy" Draws Throngs To Sample Foods

There are always interesting salons to be seen in Paris and just now there are no less than three—the Autumn Salon of painting and sculpture, the Nautical Salon with full-sized yachts and motorboats exhibited in the great hall of the Grand Palais and most interesting for most people, the "Salon of Gastronomy."

At the latter are to be seen and tasted the most delectable viands of this fruitful land of France. There are assembled the artists of the culinary world and there the wine-makers are exhibiting their finest products for the public to taste.

It is possible to lunch there on samples, beginning with caviar and continuing with lark pie and sauerkraut with fifty kinds of sausages to choose from, hams from a dozen cures, and cakes without number, for those who look like potential customers, champagne and cognac merchants will open choice bottles. There is even unfermented grapejuice to be sampled, for France is not bigoted about wines.

Each day official and unofficial juries try out new dishes and go home at night declaring the world is almost too full of good things.

Stockyards Are Busy

Saskatoon Handling Large Percentage Of Shipments For Market

Dominion Government returns received at Saskatoon covering the marketing of livestock in the province of Saskatchewan reveal that 75 per cent. of the livestock market in this province during the week ended December 10, passed through the Saskatoon stockyards. This is taken by live-stock officials to indicate the rapid development of the cattle and hog industry in the northern areas of the province, and follows closely in line with the trend of marketing percentages for the past months.

"I would like to buy you a dress like Agatha—and a figure like it as well!"—Die Muskete, Vienna.

British Firms Interested

May Invest Capital In Clay Resources Of Saskatchewan

Possible development of Saskatchewan's clay resources by British capital is seen in information given out by the Bureau of Publications at Ottawa.

According to the Bureau's report, two British manufacturing firms have been interested by the Department of Railways, Labor and Industries, from the standpoint of the manufacture of sewer pipe and electrical porcelain.

Both companies have shown some interest in the possible erection of brick plants, and the department anticipates that with the return of normal conditions, the investigations will be continued with the object of ultimately erecting plants.

Drop In Liquor Revenue

Revenue of the Quebec liquor commission dropped to the extent of \$4,825,336 last fiscal year, according to the tenth annual report of the commission, tabled in the provincial legislature. The net revenue to the government amounted to \$9,155,993.

Shoes with cemented soles have been made in Europe for more than 15 years.

The only tool an Eskimo requires to construct an igloo is a knife.

Canadian apples are to be sold in slot machines in France.

Do You Drink Out of the Bottle?

"Yes. My doctor forbade me to drink a single glass."—Moustique, bartender.

"Hello, is that you, my little sugar plum?"

"Yes, darling—but who are you?"—Journal Amusant, Paris.

SUNDAY SCHOOL LESSON

JANUARY 3

THE SON OF GOD BECOMES MAN

Golden Text: "He that hath seen Me hath seen the Father."—John 14:9.

Lesson: John 1:1-18.
Devotional Reading: Philippians 2:5-11.

Explanation and Comments

The Great Themes Of The Gospel:

The Relation of the Word To God and To the World, verses 1-5.

"Logos" Word, is seen in our terms theology, biology, chronology, etc.

"Logos" Word, is also an ancient term in both Jewish and Gentile thought.

It meant the Eternal God in relation to men, the self-communicating God. John uses the term to designate Jesus Christ as expressing and revealing God in the world.

"Christ is not a word, you observe, but the Word. Every great and good man in the world began, when he added anything to the general fund of virtue or truth, to be called the Word of God. Galileo was God's word to science. Luther was God's word to religion. Paul Christ was the Word uttered once for all, expressing the very soul of God with such entire completeness and finality, that of him it may be said, The Word was with God and the Word was God."—J. W. Dawson.

Christ's Spirit takes breath again.

Within the lives of holy men, Each changing age beholds afresh Its word of God in human flesh.

In the beginning was the Word, and the Word was with God, and the Word was God—in the Word God dwelt. The purpose of the Gospel of John is to prove that Jesus is the incarnate Word: "Doxos;" John 20:30, 31.

"I say the acknowledgement of God in Christ Accepted by Thy reason, solves for All questions in the earth and out of it." J. Browning.

Hi was life; and the life was the light of men. He is the source of life, the life of men; the life of the world, whence His life is the source of light, whence comes men's power to discern the truth. Compare Psalm 36:9.

For with Thee is the fountain of life; In Thy light shall we see light.

The Witness 6-9—To the Word By A Word, verse 6—Suddenly the Word is, as if on a sudden, visible, as though he were being too keen and rare. John drops down to speak of things from the standpoint of man.

There came a man, sent from God (and therefore the Word of God), whom we call John.

John the Baptist we call him, to distinguish him from John the Apostle. He was sent to bear witness to the Light, to Jesus the Word, who was the true Light.

Auto Bungalow Camp For National Park

May Be Established Under License At Prince Albert

The National Parks Department will shortly advertise for offers for an exclusive license to establish an auto bungalow camp at Prince Albert National Park, it was announced by the superintendent, J. A. Wood. The license offered is for 21 years, renewable for a further 21 years. Exclusive rights to operate a bungalow camp are given for only five years.

In the parks office here cover \$5,000 worth of buildings by the first year. These are only in the nature of a suggestion, Mr. Wood said.

In any event, plans and specifications will have to be fully approved by the parks department. Three proposed sites are under consideration.

Has Had 285 Rulers

Governor Job Is Not A Steady One

In Chihuahua

Governors come and governors go in the Mexican state of Chihuahua.

Colonel Roberto Fierro, recently appointed governor of the state, is the 28th man to hold the post since Chihuahua was organized in 1824.

Chihuahua has had an average of two and a half governors a year.

No governor in the last twenty years has served out his elective term of two years.

Enrique Crael, who left office in 1910, was the last governor to serve out a term.

Chihuahua has had seven governors in the last three years.

The shortest term ever held by a governor was one hour.

"Mummy, mummy! I can't see the Pole, you said we would pass over the Pole, and I can't see anything at all 'cept ice and snow. I wanted to see the POLE! I waan't to seeee the POLE! Boo! Hoo!"

The centre of Greenland is blanketed with ice to a depth of almost two miles.

Sweet potatoes have been successfully grown in both Ontario and Alberta.

Black walnut wood is used in the manufacture of gunstocks and airplane propellers.

Are Building Giant Liner

New Queen Of Seas Under Construction For Cunard Company

Almost a quarter of a million people in Great Britain will have had employment either directly or indirectly in the construction of the new giant Cunard liner which is being built by John Brown & Co., at their Clydebank yards.

There is hardly an industry in the whole of Great Britain that has not been affected in some way or other by the construction of this mighty vessel. Everywhere factories have been working night and day since the order for this liner was first given to John Brown & Co., on December 1st, 1930, by Sir Percy Bates, Bart., G.B.E., chairman of the Cunard Line.

In addition to the great forgings, tube generators, mills and miles of tubing and such like accessories which will be wanted, there will be thousands of pieces of cutlery and plate, crockery and other equipment required for feeding the large armies of passengers on this new super Cunard liner on her trans-Atlantic crossings.

What the huge rudder, which in weight equals about twenty-five street cars, was being transported from Darlington to Clydebank, the railway company, over whose lines it was being carried, went forced to suspend all other trains until the one carrying the rudder had completed its journey, as the mammoth piece of metal required a specially-constructed flat cars running side by side to carry it. A veritable forest of lumber was required to furnish the wooden props for varying sizes which support the vessel as she lies in her stocks. This new Queen of the Seas will be turned over to the Cunard Line sometime in 1933. Her launching is expected to take place early next year.

Has Gone Beyond Reason

Ten Per Cent. Discount On Canadian Dollar Is Plenty

The discount upon the Canadian dollar is, so far as the statistical record goes, beyond reason. A ten per cent. allowance would apparently bridge the difference between the Canadian and the American dollar; and a continuing discount at that rate would be accepted as satisfactory and would permit the doing of business. Instead, the discount has reached a height so unjustifiable by the known facts as to suggest manipulation. It is, of course, claimed that the exchange is determined with exactitude by the operation of the law of supply and demand; but this, like other beliefs about the automatic and impartial functioning of international banking, is being damaged by developments which suggest that the whole field of international banking has been in recent months a battlefield for powerful, unscrupulous schemers and financial powers.

New York has been for many years the money market for Canada and we have made our exchanges with the world through it. Under former conditions this was natural, convenient, safe and prompt. But it is now apparent that if we are forced to continue to use this machinery we shall pay a heavy toll. The suggestion comes from Ottawa that our dependence upon New York can be broken by the establishment of our own monetary market in Montreal. It is a question not of the desirability of this change but of its practicality. If such a market can be established by the joint action of the banks and with the assistance of the Government, there should be no delay in embarking upon the enterprise.—Manitoba Free Press.

Radium is being used to detect flaws in steel plants used in shipbuilding.

CHAPTER IX.—Continued.

Nick at once established himself at Jean's side kindly informing her that now that his master was satisfied he was prepared to make himself agreeable. Upon which Lady Anne apologized for his master and Nick interrupted her, volubly pointing out that the fault, if any (which he denied), was entirely hers, since she had been responsible both for his upbringing and inherited tendencies. They both talked at once, wrangling together with huge zest and enjoyment, and it was easily apparent that the two were very close friends indeed.

Blaise took no part in the stream of chatter and nonsense which ensued, but stood a little apart, his shoulder propped against the chimney-piece, drinking his coffee in silence.

Jean's glance wandered reflectively from one brother to the other. They presented a striking contrast—the stern, dark-browed face of the elder man, with its bitter-looking mouth and that strange white streak across his dark hair, and the blushing, blue-eyed charm of the younger. The difference between them was as definite as the difference between sunlight and shadow.

Nick was full of plans for Jean's entertainment, suggestions for boating and tennis occupying a prominent position in the programme he sketched out.

"It's really quite jolly paddling about on our lake," he rattled on. "The stream that feeds it has miles from Dartmoor, of course. All Devonshire streams do, I believe—at least, you'll never hear of one that doesn't, the Moor being our proudest possession. Besides, people always believe that your water supply must be of crystaline purity if you just casually mention that its source is a Dartmoor spring. So of course, we all swear to the Dartmoor origin of our domestic waterworks. It sounds well—unless it's not always strictly true."

"Miss Peterson must find it a trifle difficult to follow your train of thought," commented Blaise a little sharply. "A moment ago you were discussing boating, and now it sounds as though you'll shortly involve yourself—and us—in a disposition upon hygiene."

Nick smiled placidly.

"My enthusiasm got away with me a bit," he admitted with untruffled calm. "But I haven't the least doubt that Miss Peterson will like to know these few reassuring particulars. However—" And he forthwith returned enthusiastically to the prospect of tennis and kindred pastimes.

Once again Blaise broke in ungraciously. It seemed as though, for some reason, Nick's flow of light-hearted nonsense and the dozen different plans he was proposing for Jean's future diversion, irritated him.

"Your suggestions seem to me remarkably inept, Nick," he observed scathingly, "seeing that at present it is midwinter and the lake frozen over about a foot deep. Quite conceivably, by the time that tennis and boating become practicable, Miss Peterson may not be here. You may get tired of us long before the summer comes," he added quickly, as though in a belated endeavour to explain away the suggestion of inospitality which might easily be inferred from his previous words.

But if the hasty addition was intended to reassure Jean, it failed of its purpose. The idea that her coming to Staple was not particularly acceptable to its master had already taken possession of her. Originally the consequence of the conversation she had overheard at the hotel, Tor-

marin's reluctantly given welcome when he met her at Coombe Earle Station had served to increase her feeling of embarrassment. And now, this last speech, though so hastily qualified, convinced her that her advent was regarded by her host in anything but a pleasurable light.

"Yes, I don't think you must count on me for the tennis season, Mr. Brennan," she said quickly, "I don't propose to billet myself on you indefinitely, you know."

"Oh, but I hope you do, my dear."

Lady Anne interposed with a simple sincerity there was no doubt. "You must certainly stay with us till your father comes home, and"—with a smile—"unless Glyn has altered considerably, I imagine Belmills will not see him again under a year."

"But I couldn't possibly foist myself on to you for a year!" exclaimed Jean. "That would be a sheer imposition."

Lady Anne smiled across at her.

"My dear," she said, "I've never had a daughter—only these two great, unmanageable sons—and I'm just longing to play at having one. You're not going to disappoint me, I hope?"

There was something irresistibly winning in Lady Anne's way of putting the matter, and Jean jumped up and kissed her impulsively.

"I should hate to!" she answered warmly.

But she evaded giving a direct promise; there must be a clear understanding between herself and Tomarin before she could accept Lady Anne's hospitality as frankly and fully as it was offered.

The opportunity for this clearer understanding came with the entry of Balmer the butler, who brought the information that a favourite young sister of Nick's had been taken ill and that the butler feared the dog had disturbed her.

Spink sprang up, his concern showing in his face.

"I'll come out and have a look at him," he said quickly.

"I'll come with you," added Lady Anne.

She slipped her hand through his arm and they hurried off to the stable, leaving Blaise and Jean alone together.

For a moment neither spoke. Blaise, smoking a cigarette, remained staring sombrely into the fire. Apparently he did not regard it as incumbent on him to make conversation, and Jean felt miserably nervous about broaching the subject of her visit. At last, however, fear led Lady Anne and Nick should return before she could do so, drove her into speech.

"Mr. Tomarin," she said quietly—so quickly that none would have guessed the flurry of shyness which underlay her cool little voice—"I am very sorry you will have to put up with me for a week or two, but I promise you I will try to make other arrangements as soon as I can."

He turned towards her abruptly.

"May I ask what you mean?" he demanded. It was evident from the haughty, almost arrogant tone of his voice that something had aroused his anger, though whether it was the irritation consequent upon her presence there, or because he chose to take her speech as censuring his attitude, Jean was unable to determine. His eyes were stormy and inwardly she quailed a little beneath their glance; outwardly, however, she retained her composure.

"I think my meaning is perfectly clear," she returned with spirit. "Even at the station you made it quite evident that my appearance came upon you in the light of an unpleasant surprise. And—from what you said just now to Mr. Brennan—it is obvious you hope my visit will not be a long one."

If she had anticipated spurring him into an impulsive disclaimer, she was disappointed.

"I am sorry I have failed so lamentably in my duties as host," he said coldly.

The apology, uttered with such an entire lack of ardour, served to emphasize the offence for which it was professed to ask pardon. Jean's face whitened. She would hardly have felt more hurt and astonished if he had struck her.

"—I—" she began. Then stopped, finding her voice unsteady.

He had had the break in the low, shaken tones, and in a moment his mood of intolerant anger vanished.

"Forgive me," he said remorsefully—and there was genuine contrition in his voice now. "I'm a cross-grained fellow, Miss Peterson; you'll find that out before you've been here many days. But never think that you are unwelcome at Staple."

"Then why—I don't understand you," she stammered. She found his sudden changes of humour bewildering.

He smiled down at her, that rare,

strangely sweet smile of his which

when it came always seemed to transform his face, obliterating the harsh sternness of his lines.

"Perhaps I don't understand either," he said gently. "Only I know it would have been better if you had never come to Staple."

"Then—you wish I hadn't come?"

"Yes"—slowly. "I think I do wish that."

She looked at him a little wistfully. "Is that why you were angry—because I've come here? Lady Anne and—Mr. Brennan seemed quite pleased," she added as though in protest.

"No doubt. Nick, lucky devil, has no need to economize in magic moments."

She felt her cheeks flush under the look he bent upon her, but she forced herself to meet it.

"And—what?" she questioned very low.

"I have"—briefly.

It was long before sleep visited Jean that night. The events of the day marched processionally through her mind, and her thoughts persisted in clustering round the baffling, incomprehensible personality of Blaise Tomarin.

His extreme bitterness of speech described the unfortunate episode that lay in his past. But she could find no reason for his strange expressed wish to disregard their former meeting at Montavan—to wipe out, as it were, all recollection of it.

That he did not dislike her she felt sure; and a woman rarely makes a mistake over a man's personal attitude towards her. But for some reason, it seemed to her, he was afraid to let himself like her! It was, as though he were anxious to bolt and bar the door against any possibility of friendship between them. From whichever way she looked at it, she could find no key to the mystery of his behaviour. It was inexplicable.

Only one thing emerged from the confusion of thought; the lost glamour of that night at Montavan had returned—returned with fresh impulse and persuasiveness. And when at last she fell asleep, it was with the boding, soul-haunting melody of "Valse Triste" crying in her ears.

(To Be Continued.)

Prince Stresses the Value Of Advertising

Urge Nation To Keep Britain Before the World

The Prince of Wales urged the nation to tell the world that Great Britain is "still alive" and able to take advantage of the most modern method of advertising.

Addressing the annual meeting of the Travel Association, the British Empire's best salesman when he quoted a modernized version of an old rhyme:

"Early to bed and early to rise:
'You'll simply bust if you don't advertise.'

"Too little is known abroad of what Britain and Ireland have to offer," the Prince said, "while there is too much talk of financial and industrial difficulties which we, in common with every other country, are suffering."

The Prince told the meeting, at which Lord Derby presided and which was attended by many prominent persons including 30 mayors from all parts of England, that the stoppage of British pleasure touring abroad was merely an emergency measure, due to the financial situation.

Waiter Had His Joke

"Give me an asphyxiated waiter," smothered in mushrooms, you know."

"'Yah-suh! A' shall I bring you a miniature cocktail with it?"

"What's that?"

"You drink it in and a miniature out, boss."

"I am sorry I have failed so lamentably in my duties as host," he said coldly.

The question of where does the halibut come from is still unanswered despite several years of investigation on the North Pacific Coast.

Almost every part of the whale has a commercial value.

"You have not brushed my coat, Joseph."

"How do you know?"

"I left a cigar in the pocket and it is still there." —Pete Mole, Pa.

Millionaires Are Fewer

Reduced By Half In U.S. After Stock Crash Of 1929

That there are 23,494 fewer millionaires in the United States now than there were before the stock market crash is one of the striking revelations of the disastrous effects of the business depression made by the Internal Revenue Bureau's statistics of income for 1930 issued at Washington.

If a millionaire be defined as a person with not less than a million dollars' worth of property, the income from which is \$50,000 or more, there were 43,184 millionaires in the heyday of the boom times in 1928. The stock market crashed in October, 1929, leaving 28,650 persons reporting incomes of \$50,000 or more for that calendar year. In 1930, however, the number of millionaires had fallen to 10,683.

The figures showing less than half as many millionaires with about one-third of their former income will have an important bearing upon tax legislation in the approaching session of Congress to meet the two billion dollar treasury deficit looming for this fiscal year.

THE RHYMING OPTIMIST

By Aline Michaells

LIVE OAK

All the trees in the forest Bow to the winter's will, Flinging their bright-hued leaves aside,

Shuddering, bare and chill.

All the trees in the forest Scatter their leaves of gold, Scattering their leaves of red and bronze Naked they stand, and cold.

All the trees in the forest Saven the oak alone— Live oak, who clings to his robe of green, Careless that summer has flown.

I would be, like the oak tree, Dauntless in winter's blast, Clothed with the joy of sunlight hours And the memories of the past.

Companion Was Harmless

Indian Trapper Discovered He Slept In Cabin With Bear

Once upon a time—quite recently in fact—Peter John, an Indian from the Rama band, was walking through the woods near Orilla, Ont. Here and there he inspected his traps. It was getting dusk and the reserve was a long way from Peter John. So he decided to spend the night in an old cabin. In the cabin were two beds, one little bed and a big bed.

Peter John climbed into the big bed and went to sleep. In the morning Peter John was awakened by a steamer and wheezing snore and a couple of yawns. So he looked into the little bed and there he saw what he thought was a man in a fur coat. Peter John said "Hello," but there was no answer. He reached out and unclosed the fur coat. And the fur coat unclipped itself, uttered a loud "woof" and a couple of grunts and went away very quickly.

And Peter John said it was the first time, as far as he knew, he had ever slept quite so close to a bear.

Girls Are Advised

To Mary Farmers

More Chances For Having Happy Home and Fewer For Divorce

Girls eager for the best chance for domestic happiness were advised to marry farmers by Mrs. Ellsworth Richardson of Albion, Iowa, the only woman to have received the distinguished service medal awarded by the American Farm Bureau Federation.

"The girl who marries a farmer has a much greater opportunity for a happy home and a fuller home life than the girl who goes down the middle aisle with a city dweller," she said.

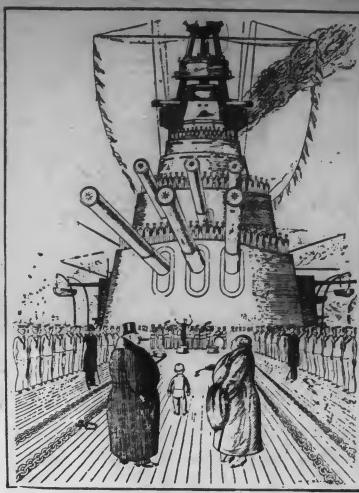

The farm, she said, brings a man and his wife into closer community of interests than is generally possible in city life.

Many mothers have reason to bless Mother Graves, farm Extension agent, because she relieves little ones of suffering and makes them healthy.

Sac County, Iowa, raises more poppies than any other county in the United States and probably more than any other similar area in the world.

Soviet Russia is beginning to ship lumber into Iraq.

Germany is Europe's largest tea-producing country.

THE CHRISTMAS PRESENT

"Why did you buy him such a big one, Henry? The child's too young to appreciate it."—The Passing Show, London, England

Canadian Authors

Effect of Tariff On Work of Canadian Writers Is Subject Of Discussion

The effect on Canadian authors of the tariff against United States periodicals came up at the meeting of the Canadian Authors' Association at Toronto. Miss Margaret Lawrence, of the Canadian Home Journal, said that since the imposition of the tariff the magazine which she represented had been receiving a better class of work. Canadian writers were sending manuscripts to their own publications instead of across the border, she thought.

J. T. Rutledge, editor of the Canadian magazine, stressed the importance of trying to improve workmanship and holding to Canadian ideals.

"People will read articles and stories in United States' publications that they would not read in Canadian," he said. "So far as the tariff was concerned, he commented, 'prohibition never helped anyone to grow strong. We do not want a tariff wall, but an attitude of mind.'"

No Boarding House

"Have you Charles Dickens in your home?" asked the polite book agent.

"No," snapped the housewife at the door.

"Or a Robert Louis Stevenson?"

"No."

"Or a Gene Field?"

"No, an' what's more we don't run a boarding house here, but they're one across the street. You ask them."

New Life-Saving Suit

A life-saving suit, resembling a pair of overalls or a one-piece suit of clothes, being put on the market for those who ride in speed-boats or hydroplanes and are subject to their dangers. It is made of waterproof tissue and constructed on a system of watertight compartments.

Among Indians fishing was commonly a woman's task.

Sixty languages and dialects are spoken in Manila.

A bamboo straw hat often costs \$200 in Manila.

BONZO

By Studdy

DON'T SCOFF AT MY SINGING, BONZO! I AM WORKING VERY HARD AT IT!

DO YOU HEAR ME? ME? ME?

WELL, SHE IS THAT AND SHE IS A REAL SINGER!!

DUH-OH-OH-OH! DUH-OH-OH-OH!

SHES PUTTING HER WHOLE SOUL INTO IT NOW, SHES THAT'S FINE!

OO-OH-OH-OH! DUH-OH-OH-OH!

THE PIANO ON MY PIANO! COO-OH-WOW!

DO YOU HEAR ME? ME? ME?

WELL, SHE IS THAT AND SHE IS A REAL SINGER!!

DO YOU HEAR ME? ME? ME?

WELL, SHE IS THAT AND SHE IS A REAL SINGER!!

DUH-OH-OH-OH! DUH-OH-OH-OH!

SHES PUTTING HER WHOLE SOUL INTO IT NOW, SHES THAT'S FINE!
